DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/3/09 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Neslihan Doran on 9/21/09.

The application has been amended as follows:

IN THE CLAIMS:

Please cancel claims 1-34.

FOR THE TITLE:

Please change the title to: FUEL CELL POWER CONTROL UNIT

Allowable Subject Matter

Claim 36 is allowed.

The following is an examiner's statement of reasons for allowance: The instant invention is drawn to a fuel cell system with a controller programmed to control the amount of excess reactant gas supplied to the fuel cell when a change in the input signals indicates an acceleration of the vehicle. The controller obtains data from two current-voltage characteristic representations of the fuel cell operation and determines the amount of excess reacting gas based on the intended output current when the fuel cell current corresponds to a first output current. The closest prior art of Kimura teaches a load following method that supplies reactant to the fuel cell based on an expected charge-discharge state of the battery; however, Kimura does not teach separate current-voltage characteristic representations that is the basis for determining the amount of excess reactant gas required to meet the current requirements for an increase in acceleration of a vehicle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KEITH WALKER whose telephone number is (571)272-3458. The examiner can normally be reached on Mon. - Fri. 8am - 5pm.
